(2) Ms. Yesil was appointed as a member of the compensation committee on June 14, 2017.

The primary responsibilities of each committee are described below.

Audit Committee

Messrs. Bonnie, Dangeard and Fingerhood serve on the audit committee, and Mr. Fingerhood serves as its chairman. Our board of directors annually reviews the Nasdaq listing standards definition of independence for audit committee members and has determined that Messrs. Bonnie, Dangeard and Fingerhood are independent (as independence is currently defined in applicable Nasdaq listing standards for audit committees and Rule 10A-3 promulgated under the Exchange Act).

Our board of directors has determined that Messrs. Bonnie, Dangeard and Fingerhood are audit committee financial experts, as defined by the rules promulgated by the SEC. The designation of Messrs. Bonnie, Dangeard and Fingerhood as an audit committee financial experts does not impose on them any duties, obligations or liability that are greater than those that are generally imposed on each of them as members of our audit committee and our board of directors, and their designation as audit committee financial experts pursuant to this SEC requirement does not affect the duties, obligations or liability of any other member of our audit committee or board of directors.

The audit committee assists our board of directors in fulfilling its legal and fiduciary obligations in matters involving our accounting, auditing, financial reporting, internal control and legal compliance functions by approving the services performed by our independent registered public accounting firm and reviewing their reports regarding our accounting practices and systems of internal accounting controls. The audit committee also oversees the audit efforts of our independent registered public accounting firm and takes actions as it deems necessary to satisfy itself that such firm is independent of management. The audit committee is also responsible for monitoring the integrity of our financial statements and our compliance with legal and regulatory requirements as they relate to financial statements or accounting matters.

Both our independent registered public accounting firm and internal financial personnel regularly meet with, and have unrestricted access to, the audit committee.

Compensation Committee

At the beginning of 2017, Messrs. Bonnie, Robertson, Palter, and Thomas Ryder served on the compensation committee, and Mr. Bonnie served as its chairman. Mr. Ryder resigned from the compensation committee effective June 13, 2017, the date of the Company's 2017 Annual Meeting of Stockholders. Effective that same date, Ms. Yesil was appointed as a member of the compensation committee, and Mr. Palter was appointed chairman. Our board of directors has determined that Messrs. Bonnie, Palter and Robertson satisfy the independence requirements of the applicable Nasdaq listing standards and SEC rules and regulations for directors.

The compensation committee assists our board of directors in meeting its responsibilities with regard to oversight and determination of executive compensation and assesses whether our compensation structure establishes appropriate incentives for officers and employees. The compensation committee reviews and makes recommendations to our board of directors with respect to our major compensation plans, policies and programs. In addition, the compensation committee reviews and approves the compensation for our executive officers, establishes and modifies the terms and conditions of employment of our executive officers and administers our equity incentive plans.

Nominating and Corporate Governance Committee

At the beginning of 2017, Messrs. Dangeard, Fingerhood and Ryder served on the nominating and corporate governance committee, and Mr. Ryder served as its chairman. Mr. Ryder resigned from the nominating and corporate governance committee effective June 13, 2017, the date of the Company's 2017 Annual Meeting of Stockholders, and Mr. Dangeard was appointed chairman effective that same date. Effective March 15, 2017, Ms. Yesil was appointed to the nominating and corporate governance committee. Our board of directors has determined that Ms. Yesil and Messrs. Dangeard and Fingerhood satisfy the independence requirements of the applicable Nasdaq listing standards and SEC rules and regulations for directors.

The nominating and corporate governance committee is responsible for making recommendations to our board of directors regarding candidates for directorships and the size and composition of our board of directors. In addition, the nominating and corporate governance committee is responsible for overseeing our corporate governance guidelines and reporting and making recommendations to our board of directors concerning corporate governance matters.

The nominating and corporate governance committee is also responsible for reviewing with our board of directors from time to time the appropriate skills and guidelines required of directors in the context of the current make-up of the board. These guidelines and skills of the board, as a whole, may include (i) various and relevant career experience, (ii) relevant skills, such as an understanding of the Company's business, (iii) financial expertise, (iv) diversity and (v) local and community ties. The minimum qualifications and skills that each director should possess include (i) the highest professional and personal ethics and values, (ii) broad experience at the policy-making level in business, government, education, technology or public interest, (iii) a commitment to enhancing stockholder value and (iv) sufficient time to carry out his or her duties and to provide insight and practical wisdom based on experience. The nominating and corporate governance committee evaluates the foregoing factors, among others, and does not assign any particular weighting or priority to any of these factors.

The nominating and corporate governance committee also considers director candidates recommended by our stockholders. To recommend a candidate for election to our board of directors, a stockholder must notify the nominating and corporate governance committee by writing to: RPX Corporation, One Market Plaza, Steuart Tower, Suite 1100, San Francisco, CA 94105, Attention: Secretary of the Company. Such stockholder's notice shall set forth the following information:

- To the extent reasonably available, information relating to such director candidate that would be required to be disclosed in a proxy statement pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, in which such individual is a nominee for election to our board of directors;
- The director candidate's written consent to (A) if selected, be named in the Company's proxy statement and proxy and (B) if elected, to serve on our board of directors; and
- Any other information that such stockholder believes is relevant in considering the director candidate.

The nominating and corporate governance committee considers bona fide candidates from all relevant sources, including current board members, professional search firms, stockholders and other persons. The committee evaluates director candidates in light of the board membership criteria described above, based on all relevant information and materials available to the committee. This includes information and materials provided by stockholders recommending director candidates, professional search firms and other parties.

General Overview and Objectives of our Executive Compensation Programs

We help companies reduce patent litigation risk and corporate legal expense through two primary service offerings: our patent risk management services and our discovery services. We recognize that the success of our company depends to a great degree on our ability to attract and retain talented employees who have relevant skills and experience to help us manage and expand our business. As such, the principal objectives of our executive compensation programs are the following:

- to attract and retain talented and experienced executives whose knowledge, skills and performance ensure our continued success;
- to provide incentive to our executives to manage our business to meet our short-term and long-term business objectives;
- to ensure that our total compensation is fair, reasonable and competitive; and
- to promote teamwork while also recognizing the role each executive officer plays in our success.

Each of the primary elements of our executive compensation program is discussed in more detail below. While we have identified particular compensation objectives that each element of executive

compensation serves, our executive compensation programs are designed to be flexible and complementary, and to collectively serve all of the executive compensation objectives described above. Accordingly, whether or not specifically mentioned below, we believe that, as a part of our overall executive compensation policy, each individual element, to a greater or lesser extent, serves each of our objectives.

Role of Our Compensation Committee, Management and Compensation Consultant

Our compensation committee administers our executive compensation programs and determines the compensation of our executive officers. For more information about our compensation committee, see “Corporate Governance - Board Committees - Compensation Committee.” The compensation committee has primary responsibility for reviewing and approving the compensation that may become payable to our executive officers, and provides strategic direction to management to enable management to implement the compensation committee’s decisions. The compensation committee made all the decisions regarding the 2017 compensation of our named executive officers.

Our chief executive officer, as the manager of our executive team, makes recommendations to the compensation committee about the compensation of each of our executive officers other than him. While our compensation committee considers his recommendations, it need not adopt them and may adjust them as it determines appropriate.

Compensia, Inc. (“Compensia”) serves as our compensation committee’s independent compensation consultant. Compensia provides the compensation committee with advice and resources to help develop and execute our overall compensation strategy. Compensia reports directly to the compensation committee, and the compensation committee has the sole power to terminate or replace Compensia at any time. As part of its engagement, the compensation committee has directed Compensia to work with members of management to obtain information necessary for Compensia to form recommendations and evaluate management’s recommendations. When requested by the committee, Compensia attends meetings of the compensation committee and provides information and responds to questions from committee members. As part of its engagement in 2017, Compensia reviewed compensation levels at the peer group companies described below and assessed compensation for Martin E. Roberts at the time that he was appointed as the Company’s interim chief executive officer and for David J. Anderson at the time that he was appointed as the Company’s chief financial officer. Compensia also reviewed board compensation trends and developments at the peer group companies described below and assessed our board of directors compensation program. Compensia does not provide any other services to the Company. In April 2018, our compensation committee analyzed whether the work of Compensia as a compensation consultant raised any conflict of interest and determined that the work of Compensia and the individual compensation advisors employed by Compensia as compensation consultants to our compensation committee has not created any conflict of interest. Our compensation committee intends to continue to assess the independence of any of our compensation advisors consistent with applicable Nasdaq listing standards.

Elements of Compensation

The compensation of our named executive officers consists of the following elements, each of which is designed to fulfill one or more of the principles and objectives described above:

- base salary;
- performance-based bonuses;
- equity incentives;
- change in control benefits;
- broad-based employee benefits; and
- perquisites.

In setting compensation levels for individual named executive officers, the members of our compensation committee apply their judgment in determining the amount and mix of compensation elements for each named executive officer and the appropriate level of each element. The appropriate use and weight of each of these components has generally not been dictated by any particular formula. Rather our compensation committee may consider a range of factors, including the executive's anticipated responsibilities and individual experience, our compensation committee members' experience and knowledge in compensating similarly situated individuals at other companies, the value of the executive officer's existing equity awards, a general sense of internal pay equity among our officers, and negotiations with the executive. We view each component of executive compensation as related but distinct, and we also review total compensation of our named executive officers to ensure that our overall compensation objectives are met. The specific mix of components has been within the discretion and business judgment of our compensation committee. These components of our compensation programs together provide compensation packages that our board of directors believes have enabled us to successfully retain and motivate our named executive officers.

Compensation Determination Process

Our compensation committee generally reviews and modifies the compensation of our named executive officers annually at the end of each fiscal year in connection with a review of each officer's performance. Our compensation committee also acts at other times based on the recommendations of our chief executive officer and as the compensation committee determines appropriate, such as in connection with the acquisition of a new business or a promotion, or as otherwise necessary to retain an officer. In 2017, we had a number of management changes, and our compensation committee re-evaluated the compensation of Messrs. Roberts, Anderson, Mankoo and Swank in connection with the changes in their positions.

In November 2016, at the request of the compensation committee and as part of the year-end compensation review and 2017 compensation setting process, Compensia prepared an analysis of the compensation of our then-chief executive officer (Mr. Amster) and then-chief financial officer (Mr. Heath) relative to the compensation paid by a peer group of companies consisting of technology and patent licensing companies with revenue less than \$450 million at the time of such review. In response to shareholder feedback and input from the compensation committee, the peer group of companies used by Compensia for the November 2016 analysis represented a significant change from the peer group that was used in prior years. In particular, all financial services firms were removed from the peer group, resulting in a peer group consisting of software companies and IP licensing companies. The new peer group includes the following companies:

Acacia Research	Interactive Intelligence Group
Bottomline Technologies	Jive Software
Callidus Software	Progress Software
CEVA	PROS Holdings
DHI Group	QAD
DTS	Rambus
Exponent	Tangoe
Financial Engines	Tessera Technologies
Immersion	

In the case of our other named executive officers, the compensation committee considered data from the Radford High-Tech Executive Compensation Survey, as the publicly available information for the peer companies does not include sufficient data with respect all of their specific positions.

We believe that this comparative data is valuable in that it provides insight into ranges and components of compensation at similarly-situated companies and helps to confirm both the competitiveness and reasonableness of our compensation decisions. Accordingly, the compensation committee used the peer group and Radford data as one of a number of factors it considered when making 2017 compensation decisions. In general, the compensation committee did not set the compensation of our named executive officers at any particular benchmark, and considerations related to our company and individual named executive officers were prioritized in making compensation decisions. In the case of 2017 cash and equity compensation approved for Mr. Roberts in connection with his appointment as chief executive officer, however, the compensation committee generally targeted the 50th percentile compared to the peer company CEO data, which reflected the compensation committee's subjective assessment of what was appropriate in connection with the promotion of Mr. Roberts and which was less than the percentage targeted for Mr. Amster. As in past years, Mr. Amster's cash compensation (prior to his resignation) was generally targeted at the 60th percentile compared to the peer group CEOs, which reflected the compensation committee's subjective assessment of what was necessary to retain Mr. Amster.

Advisory Vote on Executive Compensation

We currently conduct advisory votes on executive compensation every three years. At our 2015 annual meeting of stockholders, 88% of the shares voted were cast in favor of the advisory vote on executive compensation. The compensation committee viewed the results of this vote as broad stockholder support for our executive compensation program and did not implement any changes to our executive compensation program as a result of the vote.

Base Salary

We provide base salary to our named executive officers and other employees to compensate them for services rendered on a day-to-day basis during the fiscal year and to provide sufficient fixed cash compensation to allow the officers to focus on their ongoing responsibilities to our company. In general, base salaries for our named executive officers are initially established through arm's-length negotiation at the time the executive is hired or promoted, taking into account such executive's qualifications, experience and prior salary. Adjustments to base salaries are discretionary and are based on such factors as the scope of a named executive officer's responsibilities, individual contribution, prior experience and sustained performance. Decisions regarding salary increases may also take into account the named executive officer's current salary, equity ownership and the amounts paid to a named executive officer's peers inside our company by conducting an internal analysis, which compares the pay of each named executive officer to other members of the management team and the market compensation data. Base salaries are also reviewed and adjusted when necessary to reflect changes in individual roles and responsibilities as well as our compensation committee's subjective assessment of market conditions.

The only changes to the base salaries of our named executive officers in 2017 were in connection with promotions. With the exception of Mr. Roberts, whose base salary was set at the 50th percentile of the peer company CEO base salaries, these salaries were determined in the subjective discretion of our compensation committee based on the factors described above and taking into account Mr. Roberts' recommendations.

Named Executive Officer	Position to which Promoted	Base Salary Post-Promotion
Martin E. Roberts	Chief Executive Officer	\$500,000
David J. Anderson	Chief Financial Officer	\$310,000
Steven S. Swank	Chief Revenue Officer	\$350,000
Paul A.S. Mankoo	Chief Executive Officer, Inventus	\$350,000

No changes were made to the salaries of our other named executive officers, as our compensation committee and Mr. Roberts concluded that those officers' existing salaries were adequate.

The actual base salaries paid to our named executive officers during fiscal year 2017 are set forth in the "2017 Summary Compensation Table."

Performance-Based Bonuses

Cash performance bonuses are used to reward our named executive officers for the achievement of individual and company performance goals that we believe will in turn further our long-term business objectives. Cash bonuses are discretionary; however, we accrue a total bonus pool for all participants in our bonus plan for our patent risk management business based on corporate objectives for that business. Our compensation committee determines the actual size of the bonus pool at the end of the year using the pool performance target as a guideline, but not a requirement. The compensation committee also determines individual performance bonuses for our named executive officers based on a subjective review of individual and company performance, and, in the case of officers other than our chief executive officer, based on the recommendations of our chief executive officer. In determining individual bonus amounts, our compensation committee referred to each officer's target bonus, which is expressed as a percentage of the officer's base salary. For 2017, our named executive officers' target bonuses were 100% for Messrs. Roberts, Amster, Campion, Mankoo and Swank, 60% for Mr. Anderson, and 65% for Mr. Heath.

In February 2017, our compensation committee determined that we should accrue a 2017 bonus pool for our patent risk management business based on the level of our 2017 adjusted non-GAAP operating income from our patent risk management business, with a minimum and maximum amount to be accrued based on the performance of our patent risk management business. For the purpose of calculating the bonus pool, we define adjusted non-GAAP operating income to exclude stock-based compensation. We believe that adjusted non-GAAP operating income target was an appropriate measure of performance of our patent risk management business in 2017, as it was a key valuation measure considered by our stockholder and analyst community.

The compensation committee set the patent risk management business's target adjusted non-GAAP operating income for fiscal year 2017 at \$40.4 million and set the following accrual guidelines tied to the Company's performance:

2017 Adjusted Non-GAAP Operating Income⁽¹⁾	\$31.8 million or less (\$8.5 million below target)	\$40.4 million (100% of target)	\$49 million or more (\$8.5 million above target)
Accrual⁽²⁾	23% of total patent risk management business salaries	34% of total patent risk management business salaries	43% of total patent risk management business salaries

(1) In the case of results in between the above guidelines, the full year bonus accrual would be determined by linear interpolation between the relevant specified accrual amounts.

(2) The guidelines include an additional pool equal to two percent of salary at each level of performance in order to allow the compensation committee additional flexibility to reward outstanding performance, and also include the employer portion of related payroll taxes.

Our patent risk management business's actual adjusted non-GAAP operating income for fiscal year 2017 was \$30.8 million, which was below the target by \$9.6 million. After a review of our company's performance for 2017, our compensation committee set the actual bonus pool at \$3.88 million, or 23% of total patent risk management business annual salaries for the year, which represents 70% of target and the minimum funding level of our bonus plan. This plan structure is consistent with prior years, and the compensation committee determined it is necessary and appropriate to motivate and retain employees of our patent risk management business.

After determining the size of the bonus pool, our compensation committee approved 2017 bonuses for our named executive officers other than Mr. Mankoo, as his bonus payments are calculated separately in connection with the Inventus business. In the case of our named executive officers other than Mr. Roberts, the compensation committee also considered the recommendations of Mr. Roberts based on his subjective review of each named executive officer's performance. These reviews and bonus payouts for each named executive officer were based on the following considerations:

- Mr. Roberts' bonus was \$325,500 (65.1% of his base salary) and reflected his leadership of the company as interim chief executive officer and then as chief executive officer.
- Mr. Anderson's bonus was \$140,000 (43.1% of base salary) and reflected his leadership of the finance team and assumption of responsibilities for investor relations.

Bonuses for employees of our Inventus business are also discretionary and are generally determined in the same manner as for employees of our patent risk management business, however we do not accrue a bonus pool for Inventus as we do for our patent risk management business. Taking into account Mr. Roberts' recommendation and a subjective review of Mr. Mankoo's leadership of the discovery business as well as achievement of financial targets, our compensation committee approved a bonus of \$349,581 (100% of base salary) for Mr. Mankoo, reflecting his leadership of our discovery business and achievement of financial targets.

The cash bonuses paid to our named executive officers are set forth in the "Bonus" column of the "2017 Summary Compensation Table."

Messrs. Amster, Campion, Heath and Swank did not receive a 2017 bonus due to their termination of employment prior to the end of the year, although, as described in "Potential Payments Upon Termination or Change in Control," Mr. Campion received a payment in respect of his 2017 bonus as part of his severance benefits. In addition, Mr. Campion was eligible for an additional incentive payment of \$1,500,000 that he negotiated as part of his hire and our acquisition of our discovery business and which would have been fully earned if combined Inventus revenue for 2016-2017 was equal to or greater than 2015 Inventus revenue (approximately \$107 million). As described in "Potential Payments

Upon Termination or Change in Control," as a result of Mr. Campion's termination of employment, this amount became vested and was paid in full, subject to Mr. Campion's execution of a release of claims.

Long-Term Equity Incentives

We believe that strong long-term corporate performance may be achieved by using equity-based awards to encourage long-term performance by our named executive officers. Our compensation committee grants equity awards to our named executive officers and other employees to enable them to participate in the long-term appreciation of our stockholder value. We believe that equity grants align the interests of our named executive officers with our stockholders, provide them with incentives linked to long-term performance, and create an ownership culture. We believe that equity should be designed to serve as an effective recruitment and retention tool while also motivating our executive officers to work toward corporate objectives that provide a meaningful return to our stockholders.

In recent years equity-based awards to our named executive officers have generally been granted in the form of restricted stock units (or "RSUs"). Typically, each named executive officer receives a grant of RSUs upon joining our company. The initial awards of RSUs generally vest over four years, with 25% vesting after one year of service and the remainder vesting in equal quarterly installments over the next three years.

The size and material terms of the equity awards granted to our named executive officers are determined in the subjective discretion of our compensation committee and reflect (among other factors) individual negotiations at the time an officer is hired or promoted, the cash compensation of the officer, the officer's performance and responsibility, internal pay equity, retention concerns and the comparative market compensation data.

As a part of the annual performance and compensation review process, based on an evaluation of each employee's performance for the year, as well as any promotions or other additions to an employee's responsibilities, the compensation committee considers additional grants to employees after the first year of employment. For 2017, these grants were in the form of RSUs for all employees including our named executive officers and generally vest over four years of service. The compensation committee believes that RSUs align the interests of the named executive officers with the interests of the stockholders because the value of these awards appreciates if the trading price of our common stock appreciates, and these awards also have retention value even during periods in which our trading price does not appreciate, which supports continuity in the management team.

Consistent with this approach, our compensation committee granted the following RSUs to the named executive officers set forth below in connection with the annual review of their compensation and performance, as well as in connection with Mr. Roberts' promotion to Chief Executive Officer, Mr. Anderson's promotion to Chief Financial Officer, and Mr. Swank's promotion to Chief Revenue Officer:

- Mr. Roberts - 95,238 RSUs
- Mr. Anderson - 47,619 RSUs
- Mr. Heath - 47,619 RSUs
- Mr. Mankoo - 30,000 RSUs
- Mr. Swank - 47,619 RSUs

Messrs. Amster and Campion did not receive any equity awards during our 2017 fiscal year.

Following the reorganization of our management team and the new responsibilities of Messrs. Roberts, Anderson, Heath and Swank, and to better align their compensation with the interests of our stockholders and the goals of the business, the compensation committee granted the following performance RSUs:

- Mr. Roberts - 176,211 RSUs
- Mr. Anderson - 44,053 RSUs
- Mr. Heath - 44,053 RSUs
- Mr. Swank - 44,053 RSUs

Other than the awards to Mr. Roberts (whose equity awards reflect the 50th percentile of the peer company CEOs), the size of these RSU and performance RSU awards were determined in the subjective discretion of our compensation committee and reflect recommendations from Mr. Roberts based on his subjective review of each named executive officer's performance and responsibilities following the reorganization.

The performance restricted stock unit awards vest based on the achievement of performance goals over the 2017-2019 timeframe. Each award consists of three equal tranches, one for each fiscal year in the performance period. In order for the units associated with each fiscal year to vest, the Company must achieve the performance goals established for the year. To the extent the performance goals for a fiscal year are achieved, each tranche is eligible to vest on February 20th of the following year, subject to the officer's continued service. The 2017 goals are described below. Goals for the 2018 and 2019 portions of the award will be established by the compensation committee at the beginning of each year, which enables the committee to select goals based on priorities for each year.

For the 2017 tranche, the Performance Goals established by the compensation committee were as follows:

- (a) a total of 25% of the eligible units will vest if Adjusted EBITDA equals or exceeds 100% of the amount in the Company's 2017 Operating Plan; a total of 12.5% of the eligible units will vest if Adjusted EBITDA equals 75% of Plan; and the number of units that vest if Adjusted EBITDA is between 75% and 100% of Plan will be determined by linear interpolation between the two percentages. For a discussion of how we define Adjusted EBITDA, please see "Non-GAAP Financial Measures" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 filed on March 5, 2018;
- (b) a total of 25% of the eligible units will vest if the combined amount of new and renewal subscription bookings equals or exceeds 100% of the combined amount in the Plan; a total of 12.5% of the eligible units will vest if the combined amount of new and renewal subscription bookings equals 75% of Plan; and the number of units that vest if new and renewal subscription bookings are between 75% and 100% of Plan will be determined by linear interpolation between the two percentages;
- (c) a total of 25% of the eligible units will vest if the Company achieves 20% annual growth in revenues during 2017 in non-core, new business lines (excluding insurance and discovery services). For the purpose of determining achievement of this goal, contracted revenue and revenue from acquisition(s) will be credited toward achievement; and
- (d) a total of 25% of the eligible units will vest if the percentage change in the price of Company's common stock during 2017 equals or exceeds that of the Russell 2000 Value Index during 2017; a total of 12.5% of the eligible units will vest if the percentage change in the price of Company's common stock during 2017 equals 75% of the change in the Russell 2000 Value Index during 2017; and the number of units that vest if the percentage change in the price of Company's common stock during 2017 is between 75% and 100% of the percentage change

in the Russell 2000 Value Index during 2017 will be determined by linear interpolation between the two.

The compensation committee determined that the revenue growth and stock price performance goals described in (c) and (d) above were fully achieved and that the Adjusted EBITDA goal described in (a) above was achieved at 99%. Accordingly, 74.5% of the related RSUs vested. The compensation committee has not yet determined whether the bookings goal described in (b) above has been achieved.

The equity awards granted to our named executive officers in 2017 are reflected in the "2017 Grants of Plan-Based Awards" table below. As a result of the termination of employment of Messrs. Amster, Campion, Heath and Swank during our 2017 fiscal year, all of their RSUs that were unvested at the time of their termination were forfeited.

We do not have, nor do we plan to establish, any program, plan or practice to time stock option grants in coordination with releasing material non-public information, nor do we have any established grant schedule.

In May of 2017, the board of directors adopted stock ownership guidelines for our executive officers and non-executive directors. Pursuant to these guidelines, our executive officers are required to hold shares (including restricted stock units unless they are subject to performance conditions) equal to a multiple of base salary, specifically five (5) times base salary in the case of our CEO and three (3) times base salary in the case of our other executive officers. Covered individuals have five (5) years from the later of adoption of the policy or commencement of service as an executive officer to achieve compliance with the guidelines.

Change in Control Benefits and Severance

The equity awards held and granted to most of our named executive officers include a "double trigger" acceleration benefit if the officer is terminated without cause or resigns for certain reasons within 12 months after a change in control of our company. The terms of these arrangements are described below in "2017 Potential Payments Upon Termination or Change in Control." Our compensation committee believes that it is necessary to offer senior members of our executive team the level of protection provided under these agreements to ensure that they remain focused on executing our company's strategic plans, including in the event our company is to be acquired.

Historically we have not offered our named executive officers any contractual severance benefits, and, with the exceptions of Messrs. Campion and Mankoo, none of our named executive officers had any contractual severance benefits as we believed the appropriate level of benefits (if any) is best determined based on the facts at the time of an officer's termination. In connection with our hire of Mr. Campion and the acquisition of our discovery business, Mr. Campion negotiated contractual severance and acceleration benefits, which our compensation committee deemed necessary to secure Mr. Campion's continuing services following the acquisition, which are described in "2017 Potential Payments Upon Termination or Change in Control." Mr. Campion's severance benefits were triggered in connection with his termination of employment. Mr. Mankoo is entitled to severance benefits pursuant to his employment agreement with Inventus, which was entered into prior to our acquisition of the discovery business as described in "2017 Potential Payments Upon Termination or Change in Control."

In addition, in connection with our strategic alternatives process, our compensation committee approved severance and enhanced acceleration benefits for Messrs. Roberts, Anderson and Mankoo in March 2018, which are described in "2017 Potential Payments Upon Termination or Change in Control" and will become due if we are subject to a change in control on or prior to March 21, 2019 and the officer is subject to an involuntary termination within 12 months after the change in control with respect to Messrs. Roberts and Anderson or nine months after the change in control with respect to Mr. Mankoo.

Employee Benefits

We provide the following benefits to our named executive officers, generally on the same basis as provided to all of our employees:

- health, dental and vision insurance;
- life insurance and accidental death and dismemberment insurance;
- a 401(k) plan with an up to a \$5,000 match of employee contributions;
- an employee assistance plan;
- short- and long-term disability insurance;
- medical and dependent care flexible spending account; and
- a health savings account.

We believe these benefits are consistent with those of companies with which we compete for employees.

Perquisites

Given our location in downtown San Francisco, we pay the monthly parking fee incurred by certain of our officers and employees, including the \$525 monthly fee for Messrs. Amster, Heath and Roberts. We generally do not provide any additional perquisites to our named executive officers. In the case of Mr. Mankoo, who became our employee in connection with our acquisition of the discovery business, we continued a benefit in place for him pursuant to which we paid for a health insurance policy that was not generally provided to other employees of that business. The 2017 premium for Mr. Mankoo's health insurance was \$5,653.

Tax Considerations

Generally, Section 162(m) of the Internal Revenue Code disallows a deduction to any publicly held corporation for individual compensation exceeding \$1 million in any taxable year payable to its Chief Executive Officer and certain other officers. However, compensation in excess of \$1 million was eligible to be deducted if, among other things, it qualified as "performance-based compensation" within the meaning of Section 162(m). While our compensation committee is mindful of the benefits of deducting compensation, in order to maintain flexibility in compensating executive officers in a manner consistent with our philosophy and business goals, it has not adopted a formal policy regarding tax deductibility of compensation paid to our named executive officers and is aware that some of the compensation paid during 2017 is not deductible.

Section 280G of the Internal Revenue Code disallows a tax deduction with respect to excess parachute payments to certain executives and significant stockholders of companies that undergo a change in control. In addition, Section 4999 of the Internal Revenue Code imposes a 20% excise tax on the individual with respect to the excess parachute payment. Section 409A of the Internal Revenue Code also imposes significant additional taxes should an executive officer, director or other service provider receive "deferred compensation" that does not meet the requirements of Section 409A of the Internal Revenue Code. We have not provided any named executive officer with a gross-up or other reimbursement for tax amounts the executive might pay pursuant to Section 280G or Section 409A of the Internal Revenue Code. As a general matter, it is our intention to design and administer our compensation and benefits plans and arrangements for all of our employees and other service providers, including our named executive officers, so that they are either exempt from, or satisfy the requirements of, Section 409A of the Internal Revenue Code.

Financial Restatement

Our compensation committee has not adopted a policy on whether we will make retroactive adjustments to any cash or equity-based incentive compensation paid to the named executive officers (or others) where the payment was predicated upon the achievement of financial results that were subsequently the subject of a restatement. Our compensation committee believes that this issue is best addressed if and when a need actually arises, when all of the facts regarding the restatement are known. We intend to comply with all applicable laws and regulations requiring any adjustments to or recovery of incentive compensation.

Report of the Compensation Committee

The material in this report is not "soliciting material," is not deemed "filed" with the SEC, and is not to be incorporated by reference into any of our filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent the Company specifically incorporates it by reference into such filing.

We, as members of the compensation committee, have reviewed and discussed the Compensation Discussion and Analysis contained in this Amendment with management. Based on such review and discussion, we have recommended to the board of directors that the Compensation Discussion and Analysis be included in this Amendment.

- (2) The 2017 amounts in this column reflect discretionary bonuses approved by the compensation committee of our board of directors and paid in January 2018 based upon both company and individual performance.
 - (3) The amounts in this column represent the aggregate grant date fair value of restricted stock unit awards granted to the officer in the applicable fiscal year computed in accordance with FASB ASC Topic 718. In accordance with SEC rules, the grant date fair value of an award that is subject to a performance condition is based on the probable outcome of the performance conditions. See Note 13 of the notes to our consolidated financial statements for the fiscal year ended December 31, 2017 in our annual report on Form 10-K for fiscal year 2017 filed on March 5, 2018, for a discussion of the assumptions made in determining the grant date fair value of equity awards.
 - (4) Except as indicated below, for 2017, consists of 401(k) matching contributions provided to all plan participants.

Anderson, Heath and Swank was granted 44,052 performance-based restricted stock units. No amount is included with respect to the 2018 and 2019 tranches of these awards, representing two-thirds of the total number of units, for which performance goals were not established as of the end of the fiscal year as there was no reportable grant date fair value for those portions of the awards under FASB ASC Topic 718.

2017 Grants of Plan-Based Awards

The following table sets forth certain information regarding each plan-based award granted to our named executive officers during our 2017 fiscal year. These awards, except as indicated below, were made pursuant to our 2011 Equity Incentive Plan. Messrs. Amster and Campion did not receive any plan-based awards during our 2017 fiscal year.

amounts are included with respect to the 2018 and 2019 tranches of these performance-based restricted stock units awards as the goals applicable to those portions of the award were not established as of the end of our 2017 fiscal year and therefore those portions of the awards did not have a reportable grant date fair value.

Outstanding Equity Awards at 2017 Fiscal Year-End

The following table sets forth information regarding each unexercised option and all unvested restricted stock and restricted stock units held by each of our named executive officers as of December 31, 2017. Each restricted stock unit represents a contingent right to receive one share of our common stock.

The vesting schedule applicable to each outstanding award is described in the footnotes to the table below. For information regarding the vesting acceleration provisions applicable to the equity awards held by our named executive officers, see "2017 Potential Payments Upon Termination or Change in Control" below.

As a result of the termination of employment of Messrs. Amster, Heath, Campion and Swank during our 2017 fiscal year, all of their options and restricted stock units that were unvested at the time of their termination were forfeited and they had three months to exercise any options that were vested at the time of their termination.

(1) In accordance with SEC rules, market value is based on \$13.44, the closing price of our common stock on the last trading day of the year.

(2) Represents the unvested portion of a restricted stock unit award granted on April 13, 2017 for 95,238 restricted stock units in the case of Mr. Roberts and 47,619 restricted stock units in the case of Mr. Anderson. 6.25% of the shares subject to the award vested on May 20, 2017 and 6.25% of the shares subject to the award vest quarterly thereafter as long as continuous service is provided through each vesting date.

(3) Represents the unvested portion of the 2017 tranche of a performance-based restricted stock unit award granted on May 4, 2017 consisting of 58,737 restricted stock units in the case of Mr. Roberts and 14,684 restricted stock units in the case of Mr. Anderson and which is described in greater detail in "Compensation Discussion & Analysis - Long-Term Equity Incentives." In February 2018, the compensation committee of our board of directors determined the extent to which three of the four performance goals applicable to the units had been achieved, but the related units, 43,759 units in the case of Mr. Roberts and 10,940 units in the case of Mr. Anderson, remained subject to

vesting based on their continuous service through February 20, 2018. The compensation committee has not yet determined whether the fourth performance goal established for 2017 has been achieved and therefore 14,684 units (in the case of Mr. Roberts) and 3,671 units (in the case of Mr. Anderson) remained subject to a performance-condition. The 2018 and 2019 tranches of these awards, covering 117,474 units in the case of Mr. Roberts and 29,369 units in the case of Mr. Anderson, are not reflected in the table as the goals applicable to these tranches had not been established as of the end of our 2017 fiscal year.

- (4) As a result of the termination of their employment, Messrs. Heath and Swank had three months from December 15, 2017 to exercise these options.
- (5) Represents the unvested portion of a restricted stock unit award granted on February 6, 2014 for 25,000 restricted stock units. 6.25% of the shares subject to the award vested on May 20, 2014 and 6.25% of the shares subject to the award vested quarterly thereafter as long as continuous service is provided through each vesting date.

- (8) Represents the unvested portion of a restricted stock unit award granted on February 4, 2016 for 100,000 restricted stock units. 25% of the shares subject to the award vested on February 20, 2017, and 6.25% of the shares subject to the award vest quarterly thereafter as long as continuous service is provided through each vesting date.
- (9) Represents the unvested portion of a restricted stock unit award granted on February 4, 2016 for 70,000 restricted stock units. 33.3% of the shares subject to the award vested on February 20, 2018, and 8.3375% of the shares subject to the award vest quarterly thereafter as long as continuous service is provided through each vesting date.
- (10) Represents the unvested portion of a restricted stock unit award granted on February 2, 2017 for 30,000 restricted stock units. 6.25% of the shares subject to the award vested on May 20, 2017 and 6.25% of the shares subject to the award vested quarterly thereafter as long as continuous service is provided through each vesting date.

2017 Option Exercises and Stock Vested

Pension Benefits and Non-qualified Deferred Compensation

Our company does not provide a pension plan for employees, and no named executive officers participated in a non-qualified deferred compensation plan during the 2017 fiscal year.

2017 Potential Payments Upon Termination or Change in Control

During 2017 our named executive officers were entitled to the acceleration benefits described below which applied to their outstanding restricted stock units. Mr. Mankoo was entitled to severance benefits pursuant to his employment agreement with Inventus, which was entered into prior to our acquisition of the discovery business. Mr. Campion was also entitled to severance benefits that he negotiated as part of his hire and our acquisition of our discovery business, which were triggered when his employment terminated. While we were not contractually obligated to provide severance benefits to any other named executive officers, we provided the severance benefits described below to Messrs. Amster and Swank in connection with the termination of their employment.

Agreements with Messrs. Roberts and Anderson

Pursuant to agreements entered into with Messrs. Roberts and Anderson, if the officer was subject to an involuntary termination within 12 months following a change in control, then he would have been entitled to vesting acceleration of 50% of any then-unvested units subject to each RSU award held by the officer at the time of his termination.

In addition, in the event of a change in control, the performance goals applicable to the performance-based restricted stock units granted to Messrs. Roberts and Anderson in May 2017 would have been waived and the units would have begun vesting in equal quarterly installments over three years of service from the change in control.

In March 2018 our compensation committee approved severance and enhanced acceleration benefits for Messrs. Roberts and Anderson, which will become due if we are subject to a change in control on or prior to March 21, 2019 and the officer is subject to an involuntary termination within 12 months after the change in control. These severance benefits include cash severance equal to multiple of the officer's base salary and target bonus, paid in installments over a 12-month period, a lump sum payment in lieu of continued health benefits for 12 months, and 100% acceleration of vesting of the

officer's outstanding equity awards. Mr. Roberts is eligible to receive 1.5 times his annual base salary and 100% of his target bonus, and Mr. Anderson is eligible to receive 1.25 times his annual base salary and 75% of his target bonus. These benefits are contingent upon the officer's execution of a release of claims. In addition, if Mr. Roberts violates certain restrictive covenants during the severance period, our obligation to pay any unpaid amounts will cease.

Agreements with Mr. Mankoo

Pursuant to his employment agreement with Inventus, in the event that we terminate Mr. Mankoo's employment without cause, we are required to provide at least six months' notice, or alternatively to pay to Mr. Mankoo cash severance payments equal to six months of his base salary, any earned but unpaid bonus as of his termination date, and any contractual benefits that he would have earned and received had he remained employed during the six-month period following termination. In addition, we would be required to determine in our good faith discretion whether and to what extent, if any, Mr. Mankoo attained the performance goals for the calendar year in which termination occurs and pay to Mr. Mankoo the applicable pro-rated bonus. In the event of Mr. Mankoo's resignation for good reason, Mr. Mankoo is entitled to receive the severance benefits described above contingent upon Mr. Mankoo's execution of a release of claims.

In March 2018, our compensation committee approved severance and enhanced acceleration benefits for Mr. Mankoo, which will become due if we are subject to a change in control on or prior to March 30, 2019 and he is subject to an involuntary termination within nine months after the change in control. These severance benefits include cash severance equal to twelve months of Mr. Mankoo's base salary, and acceleration of vesting of the 65,000 shares of Mr. Mankoo's outstanding equity awards. These benefits are contingent upon Mr. Mankoo's execution of a release of claims.

Agreements with Mr. Amster

Prior to his resignation, Mr. Amster's outstanding time-based restricted stock unit awards included the same change in control provision that applied to Messrs. Roberts' and Anderson's restricted stock unit awards. In addition, if we had been subject to a change in control before his service terminated, the performance conditions applicable to Mr. Amster's performance-based restricted stock unit awards would have been waived in whole or in part and the units would have vested quarterly based on his continued service. None of these benefits were triggered when Mr. Amster resigned effective February 2, 2017. However, in connection with his resignation, we agreed to pay Mr. Amster's COBRA payments for 18 months.

Agreements with Messrs. Heath and Swank

Prior to their respective terminations of employment, the outstanding restricted stock unit awards held by Messrs. Heath and Swank included the same change in control provision that applied to Messrs. Roberts' and Anderson's restricted stock unit awards. These benefits were not triggered in connection with their termination of employment.

Mr. Swank received the following severance benefits in connection with the termination of employment: (a) payment of an amount equal to his then-current base salary for twelve months, or \$350,000 (less all applicable withholdings), (b) a one-time lump sum payment in the amount of \$175,000 (less all applicable withholdings), and (c) payment of the monthly COBRA premiums for Mr. Swank and, if applicable, his dependents until the earliest of (i) December 31, 2018, (ii) the expiration of Mr. Swank's continuation coverage under COBRA or (iii) the date when Mr. Swank becomes eligible for health insurance in connection with new employment or self-employment.

For purposes of the restricted stock unit and performance-based restricted stock unit award agreements with our named executive officers (other than Mr. Campion):

"Change in Control" is defined as:

- (a) The consummation of a merger or consolidation of the Company with or into another entity or any other corporate reorganization, if persons who were not stockholders of the Company immediately prior to such merger, consolidation or other reorganization own immediately after such merger, consolidation or other reorganization more than 50% of the voting power of the outstanding securities of each of (i) the continuing or surviving entity and (ii) any direct or indirect parent corporation of such continuing or surviving entity;
- (b) The sale, transfer or other disposition of all or substantially all of the Company's assets;
- (c) A change in the composition of the Board, as a result of which fewer than 50% of the incumbent directors are directors who either:
 - (i) Had been directors of the Company on the date 24 months prior to the date of such change in the composition of the Board (the "Original Directors"); or
 - (ii) Were appointed to the Board, or nominated for election to the Board, with the affirmative votes of at least a majority of the aggregate of (A) the Original Directors who were in office at the time of their appointment or nomination and (B) the directors whose appointment or nomination was previously approved in a manner consistent with this Paragraph (ii); or
- (d) Any transaction as a result of which any person becomes the "beneficial owner" (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing more than 50% of the total voting power represented by the Company's then outstanding voting securities. For purposes of this Subsection (d), the term "person" shall have the same meaning as when used in Sections 13(d) and 14(d) of the Exchange Act but shall exclude (i) a trustee or other fiduciary holding securities under an employee benefit plan of the Company or of a Parent or Subsidiary and (ii) a corporation owned directly or indirectly by the stockholders of the Company in substantially the same proportions as their ownership of the common stock of the Company.

A transaction shall not constitute a Change in Control if its sole purpose is to change the state of the Company's incorporation or to create a holding company that will be owned in substantially the same proportions by the persons who held the Company's securities immediately before such transaction. In addition, if a Change in Control constitutes a payment event with respect to any Award which provides for a deferral of compensation and is subject to Code Section 409A, then notwithstanding anything to the contrary in the Plan the transaction with respect to such Award must also constitute a "change in control event" as defined in Treasury Regulation Section 1.409A-3(i)(5) to the extent required by Code Section 409A.

"*Involuntary Termination*" is defined as either (i) a separation as a result of the termination of the officer's employment by the Company for reasons other than cause or death or disability; or (ii) the officer's resignation for good reason.

"*Resignation for Good Reason*" is defined as a separation as a result of the officer's resignation within 12 months after one of the following conditions has come into existence without the officer's consent: (i) a material reduction in the officer's authority and responsibility (it being understood that a material reduction in authority and responsibility shall not be deemed to have occurred as long as the

officer retains substantial senior executive responsibilities in the same line of business that the officer was involved with immediately prior to a Change in Control); (ii) a reduction in the officer's base salary by more than 10%; or (iii) a request by the Company that the officer relocate by more than 50 miles. A resignation for good reason will not be deemed to have occurred unless the officer gives the Company written notice of the condition within 90 days after the condition comes into existence and the Company fails to remedy the condition within 30 days after receiving the officer's written notice.

"Cause" is defined as (i) the officer's intentional and unauthorized use or disclosure of the Company's confidential information or trade secrets, which use or disclosure causes material harm to the Company; (ii) the officer's material breach of any agreement between the officer and the Company; (iii) the officer's material failure to comply with the Company's written policies or rules; (iv) the officer's conviction of, or plea of "guilty" or "no contest" to, a felony under the laws of the United States or any State thereof; (v) the officer's gross negligence or willful misconduct; (vi) the officer's continuing failure to perform assigned duties after receiving written notification of such failure from the Board of Directors; or (vii) the officer's failure to cooperate in good faith with a governmental or internal investigation of the Company or its directors, officers or employees, if the Company has requested the officer's cooperation.

"Disability" shall mean the officer's inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment.

Agreements with Mr. Champion

Pursuant to his offer letter, in the event that we terminated Mr. Champion's employment without cause or he resigned for good reason, Mr. Champion was eligible to receive cash severance payments equal to 12 months of his base salary and after-tax payments equal to 12 months of his COBRA premiums. These severance benefits were contingent upon Mr. Champion's execution of a release of claims. In addition, if we terminated Mr. Champion's employment without cause, he resigned for good reason or in the event of his death or disability, our compensation committee was obligated to determine the extent to which he attained the performance goals applicable to his annual bonus for the year in which his employment terminated and Mr. Champion was entitled to receive a pro-rated bonus payment for the year of termination. And, in the event we terminated Mr. Champion's employment without cause, he resigned for good reason, he died or became disabled, any unpaid portion of a \$1,500,000 cash incentive payment would become vested and paid in full, contingent upon Mr. Champion's execution of a release of claims. In connection with his termination of employment on August 1, 2017, Mr. Champion became entitled to these benefits.

In February 2016, we granted Mr. Champion two restricted stock unit awards, one for 350,000 units and the other for 100,000 units. Pursuant to the restricted stock unit award agreements applicable to these awards, if before January 22, 2017 (a) the Company was subject to a change in control, (b) the Company's Inventus business was sold or otherwise disposed (whether by merger or otherwise) or (c) Mr. Champion was subject to an involuntary termination and Mr. Champion had executed a release of claims, then Mr. Champion would have become vested in 40% of each award. In addition, if the Company was subject to a change in control or the Inventus business was sold or otherwise disposed (whether by merger or otherwise) before Mr. Champion's employment terminated and Mr. Champion was subject to an involuntary termination in connection with or within twelve months after the change in control or sale or disposition of the Inventus business, then these awards would become fully vested. Further, if Mr. Champion had died or if the Company had terminated Mr. Champion's employment because of Mr. Champion's disability, in either case prior to February 20, 2017 in the case of Mr. Champion's award of 350,000 units and prior to February 20, 2018 in the case of Mr. Champion's award of 100,000 units, then Mr. Champion will vest in the first 25% of the stock unit awards. None of these acceleration benefits were triggered by Mr. Champion's termination of employment.

For purposes of the agreements with Mr. Campion:

"Involuntary Termination" is defined as (i) a separation as a result of the termination of Mr. Campion's employment by the Company for reasons other than cause or death or disability; or (ii) Mr. Campion's resignation for good reason.

"Resignation for Good Reason" is defined as a separation as a result of Mr. Campion's voluntary resignation within 12 months after one of the following conditions has come into existence (or if later, Mr. Campion's actual knowledge of such condition) without Mr. Campion's consent: (i) (A) a reduction in Mr. Campion's title or position; or (B) a material reduction in Mr. Campion's authority or responsibility; (ii) a change in Mr. Campion's reporting relationship such that Mr. Campion no longer directly reports to the Company's Chief Executive Officer; (iii) a reduction in Mr. Campion's base salary; (iv) a requirement that Mr. Campion relocate his principal place of employment by more than 35 miles; (v) a material breach by the Company or its affiliates of any agreement with Mr. Campion to which it is a party or any obligation it has to Mr. Campion; (vi) the Company's or its affiliates' failure to pay amounts or provide benefits to Mr. Campion when due; (vii) a reduction in bonus opportunity or any material employee benefit in a manner inconsistent with other senior executives; or (viii) failure to approve this stock unit award. A Resignation for Good Reason will not be deemed to have occurred unless Mr. Campion gives the Company written notice of the condition within ninety (90) days after the condition comes into existence (or if later, Mr. Campion's actual knowledge of such condition) and the Company fails to remedy the condition within thirty (30) days after receiving Mr. Campion's written notice.

"Cause" is defined as, so long as notice is given within ninety (90) days of the initial occurrence of the grounds purporting to constitute Cause (or if later, within ninety (90) days of the Company's actual knowledge of such grounds) (i) Mr. Campion's intentional and unauthorized use or disclosure of the Company's confidential information or trade secrets, which use or disclosure causes material harm to the Company; (ii) Mr. Campion's material breach of any agreement between Mr. Campion and the Company; (iii) Mr. Campion's material failure to comply with the Company's material written policies or rules that are applicable to Mr. Campion and that have been made available to Mr. Campion; (iv) Mr. Campion's conviction of, or plea of "guilty" or "no contest" to, a felony under the laws of the United States or any State thereof; (v) Mr. Campion's gross negligence or willful misconduct relating to the Company that causes harm to the Company; (vi) Mr. Campion's continuing failure to substantially perform reasonably assigned duties after receiving written notification of such failure from the Board of Directors (provided that poor results shall not constitute grounds for Cause termination); or (vii) Mr. Campion's failure to cooperate in good faith with a governmental or internal investigation of the Company or its directors, officers or employees, if the Company has reasonably requested Mr. Campion's cooperation. To the extent Mr. Campion commits an act that would constitute Cause pursuant to (ii), (iii), (vi) or (vii), Mr. Campion will be given notice and an opportunity to cure within thirty (30) days of receiving notice and, if Mr. Campion reasonably cures such act as determined by the Audit Committee of the Company's Board of Directors, it will not constitute Cause.

Pay Ratio Disclosure

As required by the Dodd-Frank Act and SEC rules, we are providing the following information about the relationship of the annual total compensation of our employees and the annual total compensation of the persons who served as our Chief Executive Officer. For our fiscal year ended December 31, 2017:

The median of the annual total compensation of all employees of our company (excluding the annual total compensation of our Chief Executive Officer, as described below) was \$99,598.

The annual total compensation of our Chief Executive Officer was \$1,369,728.

The ratio of the total annual compensation of our Chief Executive Officer to the median of the annual total compensation of all other employees was 14 to 1.

The above ratio is appropriately viewed as an estimate. In accordance with SEC rules, the total compensation of our Chief Executive Officer was calculated by combining the total compensation paid to Messrs. Roberts and Amster during the period each served as our Chief Executive Officer, including the period Mr. Roberts served as Interim Chief Executive Officer. To identify the median of the annual compensation of our employees, we reviewed 2017 taxable wages (as determined in accordance with local laws in each jurisdiction in which our employees are employed) of our employees as of December 31, 2017. Since we have an even number of employees when not including the Chief Executive Officer, we have averaged the total compensation of the two employees closest to the median to identify the "median employee." No cost-of-living or other adjustments were made in determining our median employee. Once we identified our median employee, we determined that employee's annual total compensation in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K for purposes of calculating the required pay ratio.

Director Compensation

Pursuant to our compensation program for non-employee directors, we do not compensate our non-employee directors for their service in cash, instead providing compensation in the form of initial and annual equity awards as described below. These equity awards currently consist of restricted stock units, with each unit representing the right to receive one share of our common stock. We also reimburse our non-employee directors for their reasonable out-of-pocket expenses incurred in attending board and committee meetings.

Pursuant to our program for non-employee directors as amended in May of 2017, non-employee directors who continue to serve on our board of directors receive an annual award of restricted stock units in connection with each annual meeting of stockholders, with a target value determined based on board and committee service as set forth in the table below. A non-employee director who joins the board within 12 months prior to an annual meeting of stockholders receives a pro-rated annual award in conjunction with the director's initial appointment or election to the board, with the target value determined based on the number of days of board service that will be provided prior to the first annual meeting of stockholders that occurs following the director's appointment. Each restricted stock award vests in equal quarterly installments on our company vesting dates of August 20, November 20, February 20 and May 20, provided the director remains in continuous service through the applicable vesting date.

Board service	\$	200,000
<i>plus (as applicable):</i>		
Board chair		27,500
Audit Committee chair		22,500
Other Audit Committee members		10,000
Compensation Committee chair		15,000
Other Compensation Committee members		6,000
Nominating & Corporate Governance chair		10,000
Other Nominating & Corporate Governance members		5,000

The restricted stock unit awards are granted under our 2011 Equity Incentive Plan and are subject to full vesting acceleration in the event we undergo a change in control while the director is serving on our board of directors.

Prior to May 2017, each new non-employee director was granted an initial restricted stock unit award with a target value of \$175,000 upon such director's election to our board of directors, which vested in equal annual installments over three years of service.

Notwithstanding her status as an employee, the Board determined that Ms. Yen would participate in the compensation program for non-employee directors. Accordingly, during the period she remained employed by us, she received compensation for her board service in accordance with the program described above as though she were a non-employee director.

In May of 2017, the board of directors adopted stock ownership guidelines for our executive officers and non-executive directors. Pursuant to these guidelines, our non-executive directors are required to hold shares (including restricted stock units) equal to three (3) times his or her annual stock retainer (not including any additional amount paid for service on a committee of the board of directors). Covered individuals have five (5) years from the later of adoption of the policy or commencement of service as a director to achieve compliance with the guidelines.

Each of our directors, other than Ms. Yen and Mr. Roberts, qualifies as an independent director in accordance with the published listing requirements of Nasdaq. The Nasdaq independence definition includes a series of objective tests, such as that the director is not also one of our employees and has not engaged in certain types of business dealings with the Company. In addition, as further required by the Nasdaq rules, our board of directors has made a subjective determination as to each independent director that no relationships exist which, in the opinion of our board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, our board of directors reviewed and discussed information provided by the directors and by RPX with regard to each director's business and personal activities as they may relate to us and our management.

committee can pre-approve specified services in defined categories of audit services, audit-related services and tax services up to specified amounts, as part of the audit committee's approval of the scope of the engagement of PricewaterhouseCoopers LLP or on an individual case-by-case basis before PricewaterhouseCoopers LLP is engaged to provide a service.
